

**CURRICULUM VITAE
MARIA M. BAYLIAK**

Associate Professor, Ph.D., Department of Biochemistry and Biotechnology, Vasyl Stefanyk Precarpathian National University (PNU)

I. ADDRESS

Work address: Department of Biochemistry and Biotechnology, Vasyl Stefanyk Precarpathian National University, 57 Shevchenko Str., Ivano-Frankivsk, 76018, Ukraine.

Phone: +38(0342)596171

E-mail: bayliak@ukr.net

II. PERSONAL

Ukrainian, single, born February 25, 1981,

Languages: Ukrainian, Russian, English (professional working proficiency), German (reading and translation with dictionary)

Hobbies: embroidery, travelling, reading adventure and detective stories

III. EDUCATION

- 2003-2006 Postgraduate student, Department of Biochemistry, PNU. **Thesis title:** “Peculiarities of antioxidant defense of the yeast *Saccharomyces cerevisiae* at the different growth phases”, defended at Jurij Fed’kovych Chernivtsi National University, Ukraine (October, 2007). Supervisor: Prof. Volodymyr Lushchak, Head of Department of Biochemistry, PNU.
- 1998-2003 Student, Department of Biology, PNU. **M.Sc. Thesis (in Biology):** “Biomorphological peculiarities of *Convallaria majalis* in Precarpathian region”, May 2002 – May 2003. Supervisor: Dr. Nadija V. Shums’ka, Department of Biology, PNU.

IV. TEACHING EXPERIENCE

- 2008-present Associate Professor, Biochemistry and Biotechnology Dept., PNU. **Theoretical and practical courses:** “Metabolism integration” (lectures & seminars), “Methods of molecular biology” (lectures & practice), “Gene expression” (lectures & practice), “Biologically active natural compounds” (lectures & seminars), “Yeast biochemistry” (lectures & practice), “Biological membranes” (lectures & practice), “Practicum on Biochemistry” (practice), “Microbiology” (lectures & practice), “Virology” (lectures & seminars), “Molecular Biology” (practice).
- 2006-2008 Assistant of Professor, Biochemistry Dept., PNU. **Theoretical and practical courses:** “Biochemistry” (practice), “Microbiology” (practice), “Virology” ((seminars), “Molecular Biology” (practice), “Hydrobiology” (lectures & practice), “Ichthyology” (lectures & practice).

V. PROFESSIONAL EXPERIENCE / TRAINING / SCHOLARSHIP:

- Attendance at IV Summer School “Molecular microbiology and biotechnology”, Odesa I.I. Mechnykov National University, Odesa, Ukraine, May 25 – June 4, 2011.
- Scholarship from Queen Jadwiga Fund was received for the realization of research project “Budding yeast *Saccharomyces cerevisiae* as a model to study role of oxidative stress in ageing”. The experimental work was done at the Faculty of Biochemistry, Biophysics and Biotechnology of Jagiellonian University (Krakow, Poland) for the period of June 1-30, 2009.
- Laureate of L’Oréal-UNESCO program “For women in science 2018” (Ukraine)

VI. LABORATORY METHODS (PROFICIENCY):

Microbiological methods: light microscopy, cultivation of microorganisms, isolation of microbial cultures, study of physiological and biochemical properties of microorganisms, determination of life span of yeast cells.

Physiological methods: fruit fly *D. melanogaster* maintaining and lifespan assay; fruit fly age-related functional declines (fecundity, mobility, sensitivity to stresses, etc.)

Biochemical methods: preparation of tissue and cell extracts, enzyme activities assays, determination of kinetic characteristic of enzymes; measurement of contents of proteins, carbohydrates and lipids; protein and DNA electrophoresis; blood chemistry and blood enzymes' tests; urine analysis; enzyme-linked immunosorbent assay (ELISA); spectrophotometric determination of antioxidant properties of plant compounds and major marker of oxidative stress (protein carbonyls, products of lipid oxidation, glutathione level), and fluorimetric assay of reactive oxygen species production.

VII. SCIENTIFIC INTERESTS AND CURRENT RESEARCH WORK

- Biochemical and molecular aspects of adaptation of microorganisms to environmental conditions, in particular to oxidative stress
- Aging and anti-aging approaches
- Oxidative stress and antioxidants
- Antioxidant, adaptogenic, antiglycemic, stress-protective, neuroprotective, and geroprotective effects and detoxifying properties of natural products (alpha-ketoglutarate, arginine, quercetin, plant extracts, kombucha tea, etc.) (on models yeast *Saccharomyces cerevisiae* and fruit fly *Drosophila melanogaster*)
- Hormetic effects of low doses of stresses and xenobiotics
- Metabolic syndrome and obesity prevention and treatment (on fruit fly and mice)
- Brain aging

VIII. MEMBERSHIP IN PROFESSIONAL SOCIETIES:

Ukrainian Society for Cell Biology

Ukrainian Biochemical Society

Society of Microbiologists of Ukraine

IX. Other activities

Jury member of National Biological and Ecological Olympiads

Jury member of Contest of research works of members of Junior Academy of Sciences

Jury member of National Tournament for Young Biologists

Member of Organizing Committee and Lecturer at Carpathian Summer School in Biochemistry held annually at Department of Biochemistry and Biotechnology, PNU

Member of Organizing Committee and Lecturer at Autumn School for Young Biochemists held annually at Department of Biochemistry and Biotechnology, PNU.

X. Publications

Papers: published – 35. Abstracts: 38.

List of publications

Monograph chapter
